Midlink Home to New 20,000 SF Laboratory & Research Facilities

*TOURNEY CONSULTING GROUP BRINGS TECHNOLOGY IN HOUSE,
EXPANDING SITE AND BUILDING BUSINESS*

COMSTOCK TOWNSHIP, MICHIGAN—Tourney Consulting Group (TCG) expands their existing space at Midlink Business Park to accommodate its quickly growing business. A national leader in concrete engineering and evaluation services, TCG has had facilities at Midlink's mixed-use campus since August 2006. Its new 20,000 SF home will include two state-of-the-art, custom-built laboratory and research facilities.

Scheduled to begin early spring, construction of TCG's new facilities at Midlink West marks the company's second expansion in just two years. Midlink West is one of the business park's two existing, 800,000 SF buildings.

"We're thrilled that business is healthy and that Midlink is so supportive of our growth," said TCG President Paul Tourney. "Their tremendous size and enormous flexibility enable us to expand our facilities without having to move. That will remain a huge advantage for us, as we continue to bring cutting-edge technology and additional capabilities in house," Tourney continued.

According to Midlink Business Park President David Smith, Midlink is ideal for companies like TCG who need high-capacity, state-of-the-art facilities with plenty of room to grow. "And with its tax-free benefits, Midlink is also very affordable," said Smith.

Midlink's tax-free Renaissance Zone status is a major selling point for the business park. So are its competitive rental rates and overall can-do attitude. "We've created a pro-business environment here at Midlink that seems to breed success," said David Smith. "We're proud of that and eager to help our tenants anyway we can."

TCG's address at Midlink West is 3401 Midlink Drive, Kalamazoo, MI 49048. Midlink West is also home to tenants Kenco Logistics, Wal-Mart, Erickson Flooring, ICS and ESCO-Midwest.

About Midlink Business Park
www.midlink.com

Midlink Business Park is a world-class development, offering more than 1.6 million SF of industrial space across two existing buildings. Also available is an 88-acre build-to-suit industrial zone designed for single- and multi-tenant use. Plans for the development include an additional 38-acre office campus and 43-acre open-air retail center. The original 340-acre site was renovated and repurposed after Hackman Capital Partners purchased the property in 1999.

About Tourney Consulting Group (TCG)
www.tourneyconsulting.com

Tourney Consulting Group (TCG) provides engineers, contractors, facility operators and owners with the industry's most durable, cost-effective concrete solutions, whether designing and building new structures or evaluating and rehabilitating existing structures. Their services include condition assessment, development of performance-based specifications, design-build concrete system consulting, concrete durability and technology assessments.
