W. Soule & Company to occupy 20,000 SF at Midlink Business Park

COMSTOCK TOWNSHIP, MICHIGAN—Midlink Business Park welcomes W. Soule & Company to its growing, mixed-use campus. The company signed a lease in August to occupy 20,000 SF of space at Midlink's East building to accommodate its expanding Kalamazoo area operations.

"We're very excited about moving into Midlink Business Park," said Gary Cline, Vice President and Group Manager for W. Soule. "Midlink has been great to work with, and very accommodating with providing flexible space for us to grow our business. Our move to Midlink provides a great opportunity for W. Soule to expand our fabrication and manufacturing services for several key customers in the Renewable Fuels Industry. It helps position W. Soule on the leading edge of another growth industry."

W. Soule & Company's address at Midlink is 3384 Park Circle Drive, Comstock Township, Michigan.

W. Soule & Company, with five locations throughout Michigan including Kalamazoo, Battle Creek and Grand Rapids, is an industrial contractor specializing in industrial process piping, sheet metal fabrication, tank fabrication, millwright services, general construction, and 24-hour HVAC maintenance/service. The company caters primarily to the food & beverage, automotive, paper, pharmaceutical, chemical and energy industries. W. Soule & Company is currently one of the largest mechanical contractors in southwest Michigan.

Midlink Business Park President David Smith noted "Midlink is a great fit for companies like W. Soule who need flexible, robust, high-capacity facilities in modern, state-of-the-art environments. And, with our tax-free benefits, Midlink is very affordable to a wide-range of companies."

The park's Renaissance Zone status is a major selling point for Midlink, as are competitive rental rates, and Smith credits the Charter Township of Comstock Board, Southwest Michigan First and Michigan Economic Development Corporation (MEDC), to

name a few, for helping Midlink obtain widespread support for the Ren Zone. "Tim Hudson and The Charter Township of Comstock have helped create a very pro-business environment," said Smith. This support has allowed us to be responsive to the market and our tenants," Smith adds. "And in turn, our tenants feel good about being here."

Midlink Business Park is a world-class facility that offers more than 1.6 million SF of state-of-the-art industrial space in two existing buildings, an 88-acre build-to-suit industrial zone designed for single- and multi-tenant use, and plans for a 38-acre office campus and a 43-acre open-air retail center. The original site was renovated and repurposed after Hackman Capital Partners purchased the property in 1999.
